

Millenium

Multi-power supply

User manual

This manual contains important information on the safe operation of the product. Read and follow the safety advice and instructions given. Retain the manual for future reference. If you pass the product on to others please include this manual.

Safety instructions

Intended use

This device is used to supply suitable devices with supply voltage. Any other use or use under other operating conditions is considered to be improper and may result in personal injury or property damage. No liability will be assumed for damages resulting from improper use.

Danger for children

Ensure that plastic bags, packaging, etc. are disposed of properly and are not within reach of babies and young children. Choking hazard! Ensure that children do not detach any small parts from the product. They could swallow the pieces and choke! Never let children unattended use electrical devices.

Where to use the product

Never use the product

- in conditions of extreme temperature or humidity
- in extremely dusty or dirty areas
- at locations where the unit can become wet

General handling

- To prevent damage, never use force when handling the product.
- Never immerse the product in water. Just wipe it with a clean dry cloth. Do not use liquid cleaners such as benzene, thinners or flammable cleaning agents.

Features

- 2 × BNC connections for looping through antennas
- USB port for devices with a current draw of up to 850 mA
- 5 × 12 V \equiv outputs for radio receivers or similar, total load capacity 4 A
- Delivery includes 5 connecting cables

Connections

Front panel

- | | |
|--------------------|---|
| 1. BNC1 | BNC connection 1, looped-through to connection BNC1 on the rear panel |
| 2. POWER | On / off switch |
| 3. Power indicator | |
| 4. USB charge | Port for charging USB devices |
| 5. BNC2 | BNC connection 2, looped-through to connection BNC2 on the rear panel |

Rear panel

- | | |
|-------------------------|----------------------------|
| 6. BNC2 | BNC connection 2 |
| 7. DC OUT 12 V \equiv | 12 V outputs |
| 8. BNC1 | BNC connection 1 |
| 9. POWER INPUT | Connection for power cable |

Using the product

1. Connect the POWER INPUT jack (9) to a properly wired AC outlet using the supplied AC power cord.
2. Connect USB devices you want to supply or charge to the USB charge jack (4).
3. Connect devices that you want to supply or charge with 12 V DC with the DC OUT 12 V sockets (7).
4. Press the POWER switch (2) to turn on the unit. The power indicator (3) lights up then. Press the switch again to turn off the unit.

Technical specifications

- | | | | |
|------------------------|-------------------------------|--------------------------|------------------------|
| ■ USB port | 5 V, 850 mA (max.) | ■ Supply voltage | 100 - 240 V ~ 50/60 Hz |
| ■ DC outputs | 12 V, 4 A total load capacity | ■ Dimensions (W × H × D) | 212 × 43 × 166 mm |
| ■ Impedance BNC input | 50 Ω | ■ Weight | 1.0 kg |
| ■ Impedance BNC output | 50 Ω | | |

For the transport and protective packaging, environmentally friendly materials have been chosen that can be supplied to normal recycling. Ensure that plastic bags, packaging, etc. are properly disposed of. Do not just dispose of these materials with your normal household waste, but make sure that they are collected for recycling. Please follow the notes and markings on the packaging.

This product is subject to the European Waste Electrical and Electronic Equipment Directive (WEEE) in its currently valid version. Do not dispose of your old device with your normal household waste. Dispose of this product through an approved waste disposal firm or through your local waste facility. Comply with the rules and regulations that apply in your country. If in doubt, consult your local waste disposal facility.
