- Tip-resistant due to low instrument rest
- **Not suitable for permanent use with guitars with nitro lacquer!**

This device is intended to be used as a stand for guitars and similar musical instruments. Any other use or use under other operating conditions is considered to be improper and may result in personal injury or property damage. No liability will be assumed for damages resulting from improper use.

Ensure that plastic bags, packaging, etc. are properly disposed of and are not in the reach of babies and young children. Choking hazard! Ensure that children do not detach any small parts from the product. They could swallow the pieces and choke! Never let children use electrical devices unattended.

! The plasticiser contained in the rubber feet of this product may possibly react with the coating of your parquet, linoleum, laminate or PVC floor and after some time cause permanent dark stains. In case of doubt, do not put the rubber feet directly on the floor, but use felt-pad floor protectors or a carpet.

! We tested the stand with different guitars and finishes, and no problems occurred. Nevertheless, we advise caution when using vintage instruments and ● nitrocellulose finishes. Perspiration, environmental influences, nitrocellulose and age can cause chemical reactions which are not predictable or can be tested. Thus, we accept no liability for damages of surfaces which are due to such circumstances.

For the transport and protective packaging, environmentally friendly materials have been chosen that can be supplied to normal recycling. Ensure that plastic bags, packaging, etc. are properly disposed of. Do not just dispose of these materials with your normal household waste, but make sure that they are collected for recycling. Please follow the notes and markings on the packaging.
