

The battery charger 2 set is a plug-in battery charger to rapidly charge batteries with 2 loading slots usable independently from each other.

### Scope of delivery

- Plug-in battery charger
- 2 × AA batteries 2100 mAh

### Features

- Charging indication for both loading slots
- Lights up green during charging
- No memory effect

### Technical specifications

- Suitable for:  
NiMH and NiCd batteries size  
AA (Mignon) and AAA (Micro)
- Degree of protection: IP20
- Charging method:  
Automatic start after connection
- Charging current:  
battery Mignon (AA) 2 × 200 mA  
battery Micro (AAA) 2 × 100 mA
- Operating supply voltage:  
230 V ~ 50 Hz
- Current consumption:  
50 – 250 mA
- Colour: black
- Dimensions (W × H × D):  
43 mm × 104 mm × 75 mm
- Weight: approx. 224 g incl. accessories and packaging

Ensure that plastic bags, packaging, etc. are properly disposed of and are not in the reach of babies and young children. Choking hazard!

Incorrectly inserted batteries may destroy the device or the batteries. Ensure that proper polarity is observed when inserting batteries.

For the packaging, environmentally friendly materials have been chosen that can be supplied to normal recycling. Ensure that plastic bags, packaging, etc. are properly disposed of. Do not just dispose these materials with your normal household waste, but make sure that they are fed to a recovery. Please follow the notes and markings on the packaging.

This product is subject to the European Waste Electrical and Electronic Equipment Directive (WEEE) in its currently valid version. Do not dispose with your normal household waste.

Dispose this device through an approved waste disposal firm or through your local waste facility. When discarding the unit, comply with the rules and regulations that apply in your country. If in doubt, consult your local waste disposal facility.

Batteries do contain some hazardous chemicals so they should not be thrown away with the normal household waste. They should be returned to the manufacturer for disposal or recycled elsewhere in accordance with your local regulations. Leaking batteries can cause permanent damage to the device. Take batteries out of the device if it is not going to be used for a longer period.
